COMPANY INTRODUCTION

SunSun Lighting is an innovative company involved in R&D, manufacturing and popularization of LED lighting. Relying on independent and leading technologies of LED driving and system integration, powerful research and development strength and abundant international venture investment as well as low-cost advantage from vertical integration of the whole industrial chain, the company endeavors to promote revolution in solid-state lighting and truly bring the LED lighting to every family so as to thoroughly transform human's lighting patterns at last.

SunSun Lighting's manufacturing park is located in Changzhou, Jiangsu Province, covering an area of 330,000 square meters, where the annual output of LED bulbs reaches over 10 million pieces. Its production is managed strictly according to standards of international quality management system and international environmental management system. Its product lines cover residential lighting, commercial lighting, industrial lighting and outdoor lighting, all passing the certification of UL and the CE safety certification of the EU.

SunSun Lighting owns the world's top technical team. It originates the PowerXplore™ driving solution with the proprietary intellectual property rights, obtains many international patents for the LED system integration and considerably enhances LED lighting efficiency, AC-DC conversion efficiency and power factors. SunSun has been approved for over forty domestic and foreign patents, covering every apescts of power supplly,packaging and structre,among which 50% patens are invention patents.

"Drive Efficient Light", SunSun Lighting is looking forward to creating magnificent future for solid-state lighting industry together with global cooperative partners.

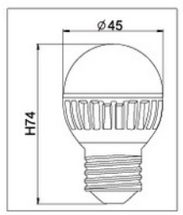
Dimmable | Energy Saving | Open Lamps | No UV/IR Radiation | Life 25,000 hrs



Packing Info

5pcs / inner caton 50pcs / outer caton

12W LED BR30

- Floodlighting
- Empowered by the PowerXplore™ technology perfectly engines mainstream LED chips
- Smoother and more uniform optics
- Slim and integrated design
- Better thermal properties for delicate structures

Model	Wattage	Beam Angle	Lumens	Efficacy	CRI	CCT	Base	Life	Dimmable

LED GRILLE SPOTLIGHT

- Empowered by the PowerXplore™ technology perfectly engines mainstream LED chips
- Thin & light design achieves high performance and low cost
- Energy saving up to 85%, PF>0.92
- Mercury free, no UV no radiation
- Innovative design for flexible commercial applications
- Higher brightness ideal for commercial applications

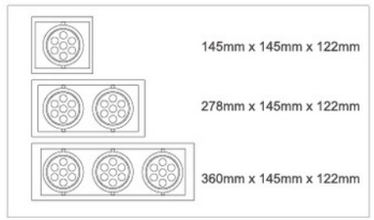
Dimmable Energy Saving Open Lamps No UV/IR Radiation Life 25,000 hrs



Packing Info

5pcs / inner caton

Reception

Create a friendly and hospitable atmosphere at the front desk.

Accent wall lighting

Inviting and focused light to show off the luxury environment.

Restaurant

Dynamic and tasteful feeling in the culinary setting.

Lobby

Flexible and inviting in gorgeous and relaxing light.

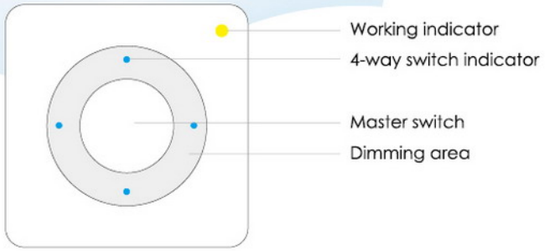
BENEFITS

- Brings countless benefits to businesses, >50% energy savings
- Create a comfortable and safe ambience for guests
- Reduce energy and maintenance costs without compromising on light quality or ambience
- Last longer and mercury free, 25000hrs@L70
- Sustainable environment

HOTEL
LIGHTING
SOLUTION

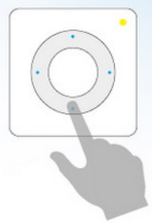
SMART LIGHTING

MANUAL CONTROLLER



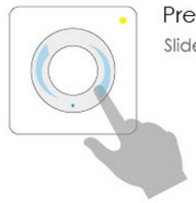
ON / OFF

Tap the touch switch to turn on/off the lights .



Dimming Mode

Press the touch point for 2 seconds.



Precise Dimming

Slide to adjust light level.
